

PPG Dekoral Akrotix 3000 Ag + Mat, Akrotix 3000 Mat and Akrotix 3000 Satyna

Product information

Akrotix 3000 Ag + Mat: The latex paint is intended for decorative coating of interior walls and ceilings with lime and cement plaster, gypsum plaster, concrete, drywall, textile wallpapers, paper and fibreglass wallpapers, textured plasterwork, and acrylic or latex paint coated surfaces. It is suitable for interiors in public and healthcare buildings and interiors in private housing. Thanks to advanced technology, Silver Ag+, silver ions contained in the paint, effectively inhibit the development of harmful bacteria aggregating on the wall surface, which was confirmed in examinations performed by an independent laboratory (report of efficiency).

Akrotix 3000 Mat and Akrotix 3000 Satyna: The latex paint is intended for decorative coating of interior walls and ceilings with lime and cement plaster, gypsum plaster, concrete, drywall, textile wallpapers, paper and fibreglass wallpapers, textured plasterwork, and acrylic or latex paint coated surfaces. It is suitable for interiors in public and healthcare buildings and interiors in private housing.
