

PPG Dekoral Polinit 3000 and Polinit 3000 HS

Product information

A matt latex paint intended for decorative coating of interior walls and ceilings made of lime-cement render, gypsum plaster, concrete, drywall, flagstone, paper and fibreglass wallpapers, textured plasterwork and acrylic or latex paint coated surfaces. The paint is suitable for coating of circulation ways, suspended ceiling faces and indoor system claddings installed on galvanised steel, aluminium, rigid PVC, primed metals, and piping insulation materials. It is suitable for all types of interiors in public and healthcare buildings and interiors in private housing.
